OBJECTIVE

Software Engineering graduate, focused on AI-driven product development and execution. Experienced in leading PRD design, translating business requirements into structured specifications, and collaborating with engineering teams to deliver functional solutions. Brings a results-oriented mindset with strong ownership in driving product features from concept to implementation. Motivated to contribute to real-world digital products through a co-op experience while progressing toward a Product Management career.

EDUCATION

AI Yamamah University <i>Bachelor of Science in Software Engineering GPA: 3.75 out of 4.00 First Class Honours Dean's List</i> ▪ Relevant Coursework: Software Maintenance and Evolution, Introduction to Artificial Intelligence, Software Quality Assurance, Project Management.	Riyadh, Saudi Arabia <i>Jan 2023 – Jan 2027, Expected</i>
Pace University, ELI <i>Advanced English Proficiency Program</i> ▪ Developed advanced academic English, public speaking, cross-cultural communication, and adaptability skills in an international environment	New York, USA <i>2020 – 2022</i>

SKILLS

▪ Technical Skills: Software Engineering, Requirements Engineering, API Integration, Technical Documentation
▪ AI & Product Skills: AI Application Development, AI Product Management, Agile Scrum, PRD & Roadmap Design
▪ Soft Skills: Analytical Thinking, Problem-Solving, Communication, Teamwork

PROFESSIONAL & PROJECT EXPERIENCE

API360 <i>Business Development Intern</i> ▪ Created corporate and product pitch decks end-to-end, owning narrative structure and value proposition design for investor and partner conversations. ▪ Conducted market research on API platforms and Saudi-based providers, identifying competitive positioning opportunities that directly informed partnership discussions. ▪ Participated in weekly planning and cross-functional alignment sessions, contributing to the company's strategic growth from early-stage operations.	Riyadh, Saudi Arabia <i>Jan 2026 – Present</i>
Smart Values <i>Business Analyst Intern</i> ▪ Gathered and analyzed business and system requirements, translating stakeholder needs into clear functional specifications. ▪ Conducted business analysis activities, including documenting workflows, use cases, and process flows.	Riyadh, Saudi Arabia <i>Aug 2024 – Jan 2025</i>

Shawaf AI-Powered Smart Tourism Platform Graduation Project <i>Product Lead & Requirements Engineer</i> ▪ Led product definition and requirements engineering, translating user needs into structured PRDs, user stories, and clear system requirements across the SDLC using Agile practices. ▪ Designed the system architecture and core logic for an AI-powered trip planning platform, focusing on multi-day itinerary generation, personalization, and optimization. ▪ Integrated LLM-based APIs to deliver personalized travel recommendations; produced a validated prototype covering 50+ user stories with full sprint feature completeness.	2025 – 2026
--	--------------------

Tamathul AI-Powered Medical Case Similarity Platform <i>Founder & Product Engineer</i> ▪ Developed initial PRD and high-level system architecture for an AI-driven healthcare platform supporting clinical decision-making through patient case similarity analysis. ▪ Designed the core similarity search engine and interactive dashboard, with built-in considerations for scalability, data privacy, and secure medical data handling.	2026
--	-------------

CERTIFICATIONS

▪ Introduction to IoT & Digital Transformation, 16 hours Cisco Networking Academy	2026
▪ Power-Bi, 40 hours Center of Executive Education at AI Yamamah University	2026
▪ AI Product Manager, 42 hours IBM	2026

EXTRACURRICULAR ACTIVITIES & INTERESTS:

▪ Career Services Centre Ambassador, AI Yamamah University. Organized and facilitated student engagement workshops and industry partnership events. Led interactive sessions with alumni and senior industry professionals, connecting students with career guidance, mentorship, and networking opportunities.
▪ Passionate about AI product development, digital transformation, and building scalable software solutions. Actively follows advancements in Product Management, LLM-based applications, and Saudi Vision 2030 tech initiatives.

To: Whom It May Concern

Student Name:	Major	College	Student ID
MESHARI AEDH A AL MANA	Software Engineering	Engineering and Architecture	202221002

This is to confirm that the student whose details appear above is a full-time student at Al Yamamah University. She / He is expected to graduate in 2026 /2027. She / He would like to apply for the Coop Program to train in the same major in your respected company.

The Cooperative Education program is a mandatory program for students admitted for the Bachelor Degree. In addition, it is a graduation requirement. The student must complete at least six months, starting from the 28 of June 2026.

Please note that the student is required to make a full-time work commitment consistent with the weekly work-hour/work-day requirements of your organization/company.

We are looking forward to your positive feedback. Please communicate with Ms. Ragad Alsaif – Acting Manager of the Career Services Center (CS@yu.edu.sa). Tell: 0112242222 Ext: 4500 This letter has been issued upon the student's request.

Faithfully,

Acting Manager of the Career Services Center

Ms. Ragad Alsaif
